Re: GN Docket No. 13-5, Technology Transitions; GN Docket No. 12-353, AT&T Petition to Launch a Proceeding Concerning the TDM-to-IP Transition; WC Docket No. 05-25, Special Access for Price Cap Local Exchange Carriers.

Dear Chairman Wheeler:

I am a shareholder at the law firm of Friedman & Friedman, P.A. in Lake Mary, Florida, a suburb of Orlando. Our firm provides legal services in the area of real estate, business, water utilities, litigation, and probate.

Broadband service is very important to our business. We want affordable broadband options, not just one or two options, that provide the individualized services and customer support we need. We want the continued ability to negotiate competitive rates for our firm by obtaining quotes from several carriers that serve our area.

We commend the FCC's efforts to provide customers with more choices for broadband service. As technology transitions, and more services move to IP based solutions, we encourage you to protect the wholesale access market. This will ensure that our ability to choose among different providers, based on factors including customer service and price, will remain intact.

By keeping the marketplace open for more competition, the FCC will help ensure that businesses like ours have the power to choose the broadband provider that is the best fit for our needs and growth.

Sincerely,

BRIDGET M. FRIEDMAN  
For the Firm
